

## Technical Data of Metal Ring Grooving Machine

### ☆ Metal Ring Grooving Machine:

Descriptions: Metal Ring Grooving Machine is used for grooving inner angle of outer ring.

#### Specifications:

1. Power: 0.75KW
2. Voltage: 380V
3. Dimensions: 850×940×1280(mm)
4. Net weight: 250KGS
5. Working dimensions:  $\geq 150\text{mm}$
6. Picture:
